

THERMO-COVER

TECHNICAL DATA SHEET 00 08/03/19

Description:

The solution for the protection of sensitive goods from too high and too low temperatures.

Benefits:

- Very easy handling
- Performance benefits due to high quality foils with real aluminium
- Made with single or double layered insulating foil according to area of application
- Worldwide delivery
- Lightweight one-way cover, coated on the inside with a layer of bubbles and with aluminium on the outside
- Highly space-saving packaging for cost-effective transport and storage

EU and USA standards: 120x80x50 and 120x80x100 cm

Materials:

Single-layer polyethylene bubble foil coated with aluminium foil on one side.

	Thickness (μm)	Weight (g/m^2)
Airbubblefoil	118.8	108
PE layer	19.8	18
Pure Aluminium	7	20

Total weight	146 g/m^2 , +/-10%
Material thickness	3.5 mm, +/- 0.5 mm
Volume	3.25 ltrs/ m^2
Thermal Resistance	$R=0.74 (\text{K}^*\text{m}^2)/\text{W}$
